Election/Restrictions

Claims 8, 15-18, and 23-35 are directed to an allowable product. Pursuant to the procedures set forth in the Official Gazette notice dated March 26, 1996 (1184 O.G. 86), claims 19-22 and 36-39, directed to the process of making or using the patentable product, previously withdrawn from consideration as a result of a restriction requirement, are now subject to being rejoined. Claims 19-22 and 36-39 are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Since all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement made in the Office action mailed on 28 August 2002 is hereby withdrawn.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Arthur Crawford on 7 July 2004.

The application has been amended as follows:

In the listing of the claims, the first claim read "1.7. Canceled." It has been corrected to read -- 1. -- 7. Canceled.- - This was amendment was done to correct a typographical error.

Allowable Subject Matter

Claims 8 and 15-39 are allowed.

The following is an examiner's statement of reasons for allowance:

Allowable Subject Matter

Claims 1-11 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art fail to disclose or suggest an optical glass having a refractive index, Abbe number, and T_g as recited in the instant claims, wherein the glass comprises the components as recited in the claims without the addition of HfO_2 .

In view of the Applicant's response and Declaration the negative limitation of comprising no HfO_2 is not found to be new matter. The Applicant's Declaration shows that the addition of HfO_2 does not form a stable glass when combined with the other glass components of the instant invention and hence cannot have the recited optical properties of the claimed glass. It is clear from the specification that HfO_2 is not a component in the glass and thus defining clear boundaries of what glass is being claimed. See MPEP 2173.05(i).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
